

# Great Engineering BenchMARK™

## Fast and Flexible On Demand Labelling

Automatic attachment:

- This feature saves time and allows for secondary processes
- Button activation or foot switch

### Automatic Attachment

- Increases productivity and saves time
- Accommodates secondary processes e.g. packing, filling and capping
- Controls application pressure and repeatability
- Incorporates ergonomic design features

Button activation

Foot switch

Applies pressure sensitive die-cut, roll-formatted labels  
Diameter of containers = 10mm (3/8 inch) to 140mm (5 1/2 inches)  
Labelling height = 230mm (9 inches approx.)  
Applies single or front and back labels  
Construction = 10mm alloy, stainless steel bolts and shafts  
Weight (unpacked) = 30 kg (66.14 pounds)  
Dimensions = 50cm x 50cm x 35cm  
Anodised finish
